Raspberry ZincO Sunscreen

Last year Raspberry Sunscreen was introduced and well-received by those searching for natural sun protection sans harmful chemicals seeping into your blood stream to disrupt hormones. Even though I described it as everyday, moderate sun protection a few folks roasted themselves in the sun for several hours! Oh, I remember those days.

Raspberry ZincO Sunscreen's silky smooth texture melts into your skin with a delicious orange and raspberry aroma. It conditions your skin without leaving a shiny white film like ordinary zinc sunscreens. It's a step up with more physical barrier protection using the correct zinc (a non-nano with a mesh size of 325 nm). Non-nano and not micronized zinc oxide particles sit on your skin as sunblock and are not absorbed into the blood stream.

This is still moderate sun protection, and I recommend reapplying often. You will still get some color with this sunscreen as it is not a total block. Black raspberry seed oil and rice bran oil have sun protective properties because their antioxidants are released to your skin surface with sun exposure.

It is best not to shake this formula. Be grateful when you receive an extra squirt of oil and kindly rub it into your skin. Use on face and body.

The Recovery Eye Crème

This is a silky smooth, creamy eye moisturizer with staying power. It firms and smoothes the eye area with a combination of plant peptides, seed oils, algae extract, fruit acids, and antioxidants. Key ingredients are plant peptides sourced from pumpkin seeds, almonds, and rice bran. Peptides enhance a product's activity and effectiveness and work to tighten and lift tissue.

This new product happily incorporates information and input from a prototype tested by my product review group, The Moonbeams Club.

White Tea Body Mist

Summertime brings more intense sun and wind exposure to your skin. To help stay cool and refreshed this summer, spray as often as you choose with this delightful body mist.

Instead of a water base this body mist features restorative, antioxidant-loaded White Tea. High-frequency essential oils of Bergamot, Rosewood, and Geranium are happily surfing over the Organic White Tea Tincture waves—so be sure to shake your bottle before misting.

Enjoy the peaceful, clean aroma and feel good providing your skin protective antioxidants.

Use freely to cool off, refresh, or for body perfume.

Rose Sundae Body Lotion

This summer we are celebrating the 19th birthday of **Rose Sundae Body Lotion**. I wrote this recipe in 1998, while in studies at the Creative Health Institute in Tucson, AZ. I was interested in both aromatherapy and Chinese medicine and did not dream I would be creating skincare.

One of my classmates asked me to formulate a safe body lotion for her pregnant sister, who wanted to keep her skin moisturized and prevent stretch marks. Rose Sundae Body Lotion was born in a bouquet of fresh roses.

Body lotions are lighter than body creams/body butters because lotions have more water and less oil—perfect for summer.

You will love this versatile lotion on your face, hands, and body—and especially if you've been in the sun or exposed to summer winds.

Just for Fun - What Mind-Body Type Are You?

Long ago Ayurvedic health systems were developed by sages in India based on two guiding principles: 1) mind and body are connected and 2) nothing has more power to heal the body than the mind.

There are three mind-body types (doshas). You are a combination of types with one being dominant. Have fun finding yourself in these brief descriptions of body-mind types in a balanced state:

Vata

Energetic, creative nature

Lean frame with energy spurts and fatigue bouts

Anger quickly; forgive quickly

Pitta

Fiery nature in body and mind

Medium size & weight, good digestion, energy

Intellectual power, good concentration

Kapha

Slow, steady, solid nature

Strong build, stamina, sleep soundly, regular digestion

Calm, thoughtful, caring, loving, enjoy life

To maintain balance, Vata types benefit from relaxing essential oils; Pitta types benefit from soothing oils; and Kapha types benefit from invigorating oils.

Scent-uous Spa Soaps

Lemon Bar Spa Soap

Nothing refreshes like divinely lemon vibes

To enhance your expression of gratitude and thanks, use Lemon essential oil. Lemon is a spiritual cleanser that enables you to center and focus in a positive way. Give your day a happy lift!

Luscious Lavender Spa Soap

The truest Lavender soap on Earth

Organic Bulgarian Lavender is a favorite for a strong, complete aroma that benefits not only your body but also your spiritual and emotional personalities. With its fresh floral aroma and a touch of woody, herbaceous notes, Lavender offers the protective warmth of Mother Earth's love. It is said to lift sadness and depression from your spirit.

Lip Conditions - Vitamin E, Orange & Mint

Lip Conditions are created with moisturizing, Vitamin A- and D-rich avocado oil and antioxidant, Vitamin E-filled jojoba. Each application provides long-lasting protection.

Vitamin E Lip Condition is our most popular lip condition. It is aroma-free and contains double Vitamin E. It may be used around your eyes to soften "crow's feet."

Orange Lip Condition is a soothing, creamy citrus option for your lips. Orange essential oil is uplifting and a happy, peaceful aroma for your mind, body, and heart.

Mint Lip Condition contains Peppermint and Spearmint oils. It gives your lips a bit more fullness when freshly applied. Peppermint essential oil is a breath freshener, and the minty aroma stimulates your mind. Spearmint can help release emotional blocks.
